

## Messmer's UV Plus Oil

UV Plus is a penetrating **deck stain**, **wood stain** and oil finish that beautifies and protects exterior wood, providing a natural appearance. It is ideal to protect Brazilian Hardwoods from sun and maintain color.

- Apply after installation and annually or semi-annually, as necessary to maintain color.
- Only apply ONE thin coat per application. NEVER apply more than one coat per application.
- Wipe up any excess spots with a cotton rag. There should be no shiny spots.
- Apply to clean, dry surface. Do not apply to wet boards.
- Apply with brush, rag (cotton T-shirt works well), Deck Pad or Deck Boss. Do NOT use a roller or sprayer.
- Apply in temperatures between 40-90 degrees F.
- Allow at least 12 hours to dry; it must not rain within 12 hours prior to or after application.
- Avoid any overlap: Apply to 2 or 3 boards at a time working down the length of the boards before moving on to the next 2-3 boards and repeat. Overlapping application will result in dark and/or sticky areas.
- **CAUTION:** rags/brushes WILL catch fire when exposed to prolonged sun and heat. Follow directions on can for proper disposal.

## Messmer's WD Liquid Renewer

Messmer's Wood and Deck Liquid Renewer and Brightener concentrate is specially formulated to clean and brighten exterior wood. Cleans and brightens exterior wood in one step. Biodegradable, safe and easy to use.

- Cleans and brightens up to 500 Square Feet.
- Wet the deck surface down with clean water.
- Follow the mixing instructions on the product label; One gallon of concentrate makes up to five gallons of solution. Mix stronger (less water) for tougher jobs.
- Wet the area with the cleaner solution using a pump sprayer, power sprayer with mix capacity or mop.
- Keep the area wet for 30 minutes. Continue to apply more solution, as necessary, to keep wet.
- While wet, scrub boards with the grain of the wood with a plastic bristled scrub brush.
- Rinse the deck thoroughly after cleaning. Allow area to dry prior to applying oil.
- NEVER use a high pressure, pressure washer to clean Brazilian Hardwoods.
